

FORMICA® TopLine

Premium designs, luxury finishes

Revisit the timeless classics of Formica® TopLine and discover our new contemporary décor additions.

In this first major update in recent years, TopLine's residential laminate range strikes a stunning new feel.

From the sleek look of Planked Coffee Oak to the elegance of our White Marble Herringbone, each new addition has been hand picked by our master design team and the world's leading trend forecasters. Two new textures, Lumber and Essence, provide a fresh experience for even the most discerning buyer.

Welcoming woodgrains, luxurious stone prints, and eye-catching patterns: with TopLine, you can be sure you're offering the full character of Europe's most popular kitchen and bathroom styles.

Woods

TopLine woodgrains have the ability to turn a house into a home with an all-natural appeal that your customers will love.

We've envisioned the world's forests and woodlands to create this distinct, on-trend range. The contemporary chic of Natural Planked Elm or the sleek elegance of Highland Pine are ideal for building the perfect kitchen.

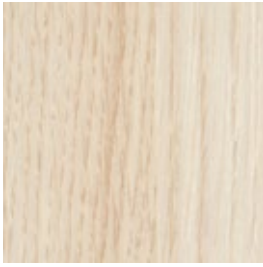

These woodgrains have been matched to our classic Puregrain texture as well as to our new texture; Lumbar, a rustic and tactile linear woodgrain that mimics the effect of light brushing.

From country cottages to city-living apartments, these woodgrains are versatile and reassuringly durable. So whatever the vision, these can create stylish surfaces that you can be confident in.

TS TrueScale Woods

Embrace the uninterrupted drama of natural timber with TrueScale Woodgrains, the laminate design with no repeat pattern across the full width of a sheet.

Using the cutting-edge technology of large-format scanners, the TrueScale range guarantees the same breath-taking appearance of naturally-sourced wood – without the inconvenience and effort of ongoing maintenance.

Stones

Make a statement with TopLine Stones.

Magnificent marbles. Glamorous granites. Bring your vision to life with high-end worktops, exquisite islands and stunning splashbacks – all chosen from the full range of our evocative decors.

Each distinctive pattern is quick to catch the eye. They'll keep the conversation flowing, and with a durability you can depend on, they'll look endlessly great no matter how many dinner parties they experience.

The kitchen is the busiest room in the house. With TopLine Stones, it can also be the most distinguished.

TrueScale Stones

Experience the intricate beauty of nature's finest originals with TrueScale Stones. These impeccable laminates capture the full glory of our landscape, with large-format scans of unique stones ensuring no repeat pattern across the width of the sheet.

With designs identified from the world's leading marble and granite quarries, each stone is chosen for its colour balance and luxurious appeal. As the visual is captured using technology initially developed for fine-art reproduction, every detail is rendered in astonishing detail.

Formica Infiniti®

ENDURING MATTE by FORMICA GROUP

Enjoy the luxurious absolute matte surface of Formica Infiniti worktops and revel in the diffused light of this supreme finish.

Its anti-marking, anti-fingerprint protection ensure it stays a picture of perfection, no matter what's on the children's fingers or how cluttered the worktop.

And because of its soft-touch feel, every minute of food prep is a pleasure rather than a chore.

-  Absolute matte - low light reflectance
-  Soft touch
-  Anti-fingerprint
-  Anti-marking
-  Anti-microbial
-  Postforming

PREMIUM GLOSS FINISH by FORMICA GROUP

Keep the scuffs at bay with this superior high-gloss laminate.

Tough and resistant, AR Plus decors have twice the surface performance of standard gloss laminate. So kitchens remain pristine, whatever daily life throws at them.

AR plus technology provides a gloss surface that is highly resistant to scuffs and mar abrasions so its the perfect peace of mind for busy families everywhere.

Surface finishes

So you can create the perfect surface finish for your worktop, island or splashback range, our design team have matched these on trend decors with a range of stunning textures to bring them to life. Formica® Laminate

Manufactured through fusing multiple layers of impregnated paper under high pressure and temperature.

- Grade:** HPL/EN 438-3 HGP: Horizontal, general purpose, postforming high pressure decorative laminate
- Thickness:** 0.5 - 0.7mm
- Decorative surface:** Single sided
- Bonding requirements:** Requires bonding to substrate. May also require backer and edging depending on substrate and application
- Applications:** Worktops, splashbacks, upstands, breakfast bars, island tops, downstands, shower panels and furniture

Features and benefits:

Formica® Compact

High pressure structural laminate, built up from multiple layers of kraft paper.

- Grade:** HPL/EN 438-4 CGS: Compact, general purpose, standard high pressure decorative laminate
- Thickness:** 2 - 20mm*
- Decorative surface:** Both sides
- Bonding requirements:** Self supporting - no bonding required*
- Applications:** Worktops, splashbacks, upstands, breakfast bars, island tops, downstands, shower panels and furniture

Features and benefits:

* Available on request. Only available in certain decor / finish combinations. Please contact Formica Group for more information.

Formica® Infiniti

Our innovative, patent-pending Formica Infiniti technology has micro-contours on the material surface that diffuse light, creating a luxurious super smooth, soft touch, matte finish. Infiniti is the first of its kind, an anti-fingerprint, super matte laminate that can be post-formed to hold a curve. Added antimicrobial properties make it highly hygienic for kitchen and bathroom furniture.

- Grade:** HPL/EN 438-3 HGP: Horizontal, general purpose, postforming high pressure decorative laminate
- Thickness:** 0.7mm

All other technical information as above.

AR Plus® Gloss

AR Plus offers a tough, durable high gloss laminate with twice the surface performance of standard gloss laminate.

- Grade:** PAR: Abrasion-resistant, high-gloss, postforming high pressure decorative laminate*
- Thickness:** 0.7mm

* PAR does not appear in the EN 438 grade classification system.
All other technical information as above.

Snow

The Snow range of laminates provide a distinctive, sparkle effect finish. It does not meet EN-438 standards for dry heat, steam and boiling resistance. Special care is required when postforming.

- Grade:** LTS: Light-duty standard high pressure decorative laminate*
- Thickness:** 0.6mm

* LTS does not appear in the EN 438 grade classification system.
Note: As a duty of care, the fabricator / installer of this material should ensure that product limitations are communicated to the end user in a clear and timely manner.
All other technical information as above.
