

2025 LOOKBOOK

A New Era in Metal Surfaces

Formica Corporation, a design leader in decorative surfaces, offers its latest metal collection from Homapal® Metal Laminates, a leading global manufacturer of real metal and magnetic laminates based in Herzberg am Harz, Germany.

The new curated portfolio was crafted with commercial interiors in mind. These new surfaces offer a spectrum of finishes that reflect current design preferences while maintaining the durability and ease-of-specification that Formica Group is known for.

M2112-99 Brushed Aluminum Goldtone

In Step with Design Trends

Honest materials continue to shape today's interiors, and metals are embracing this direction through simplicity, craftsmanship, and depth.

Simple metals offer a modern, neutral foundation, subtle yet bold surfaces that coordinate effortlessly across materials and spaces. **Handcrafted metals** bring a human touch, with each pattern applied by skilled artisans to create tactile, expressive finishes. **Deep-textured metals** explore the interplay of light, shadow, and movement, adding dimensional richness that evolves throughout the day.

Together, these trends reflect a refined approach to design, one that celebrates authenticity, versatility, and timeless appeal.

The trends inspired additions to the **Homapal® Collections: Elements, Gestures and Perspectives.**

Elements

Elements capture the expressiveness of pure metal. Brilliant and full of energy. Cool, yet with the capacity to provide warmth. Characterized by the dynamic interplay of light and reflection.

For indoor spaces with outstanding liveability.

Bronze, copper, steel, silver and gold – these basic colors with their brushed surfaces focus on the essentials and represent the four elements of fire, water, air and earth.

Crossbrushed Aluminum

MH035-99

A pristine silver shade elevated by a crossbrushed linen-like surface.

A richly warm gold enhanced
by crossbrushed texture that
resembles the fine weave of linen.

Crossbrushed Goldtone

MH036-99

Light Brushed Bronzetone

MH005-99

A classic brush texture in a cool bronze hue offering depth and a gentle metallic glow.

Brushed Aluminum Goldtone

M2112-99

A classic brush texture in a warm goldtone, balancing vibrance with classical sophistication.

Natural Soft Matte Aluminum

MH019-99

A soft matte finish in a silver shade, both contemporary and subtle.

Gestures

No two surfaces are the same. Each one is a unique creation, shaped with the care and vision of an artist. The craftsmen at the Homapal® factory are devoted to traditional metal-finishing techniques, true masters of their trade whose expertise transforms raw material into refined design.

Working with thinly rolled foils of aluminum, copper, and brass, they use intricate mechanical methods and precise hand-finishing to brush, polish, and color each surface. Through their artistry and attention to detail, every piece gains its own character and depth.

This is where the Gestures collection begins, where craftsmanship and creativity meet to bring metal to life.

Copper Crush

MH033-99

A dark copper shade with handcrafted swirling effect, producing a richly layered and expressive metal.

Perspectives

Surfaces that feel almost otherworldly.

Imaginative, vibrant, and full of energy. Each one carries a unique allure that draws you in and invites you to reach out and touch. Formed through organic inspiration and refined through industrial craft, the Perspectives Collection celebrates the beauty of diversity, encouraging you to see and experience the world from new and unexpected points of view.

Lava Smokey Grey

MH006-99

The Lava Series showcases mirrored, wavelike surfaces that animate the metal with light and reflection.

Lava Smokey Gray is a smokey grey layered across mirrored reliefs.

©jones-art.eu 2024

Lava Natural

MH141-99

A reflective aluminum with soft wave reliefs.

A rippled surface highlighted by warm copper tones.

Lava Coppertone
MH089-99

Lava Goldtone

M4937-99

A warm gold surface with natural, wave-like motifs.

Cella Coppertone

MH003-99

The Cella Series introduces a bold, tactile texture that adds depth to metallic finishes, creating dimension and shadow.

Cella Coppertone is a luminous copper shade softened by the Cella texture, blending metallic warmth with a distinctly modern surface effect.

Cella Black

MH004-99

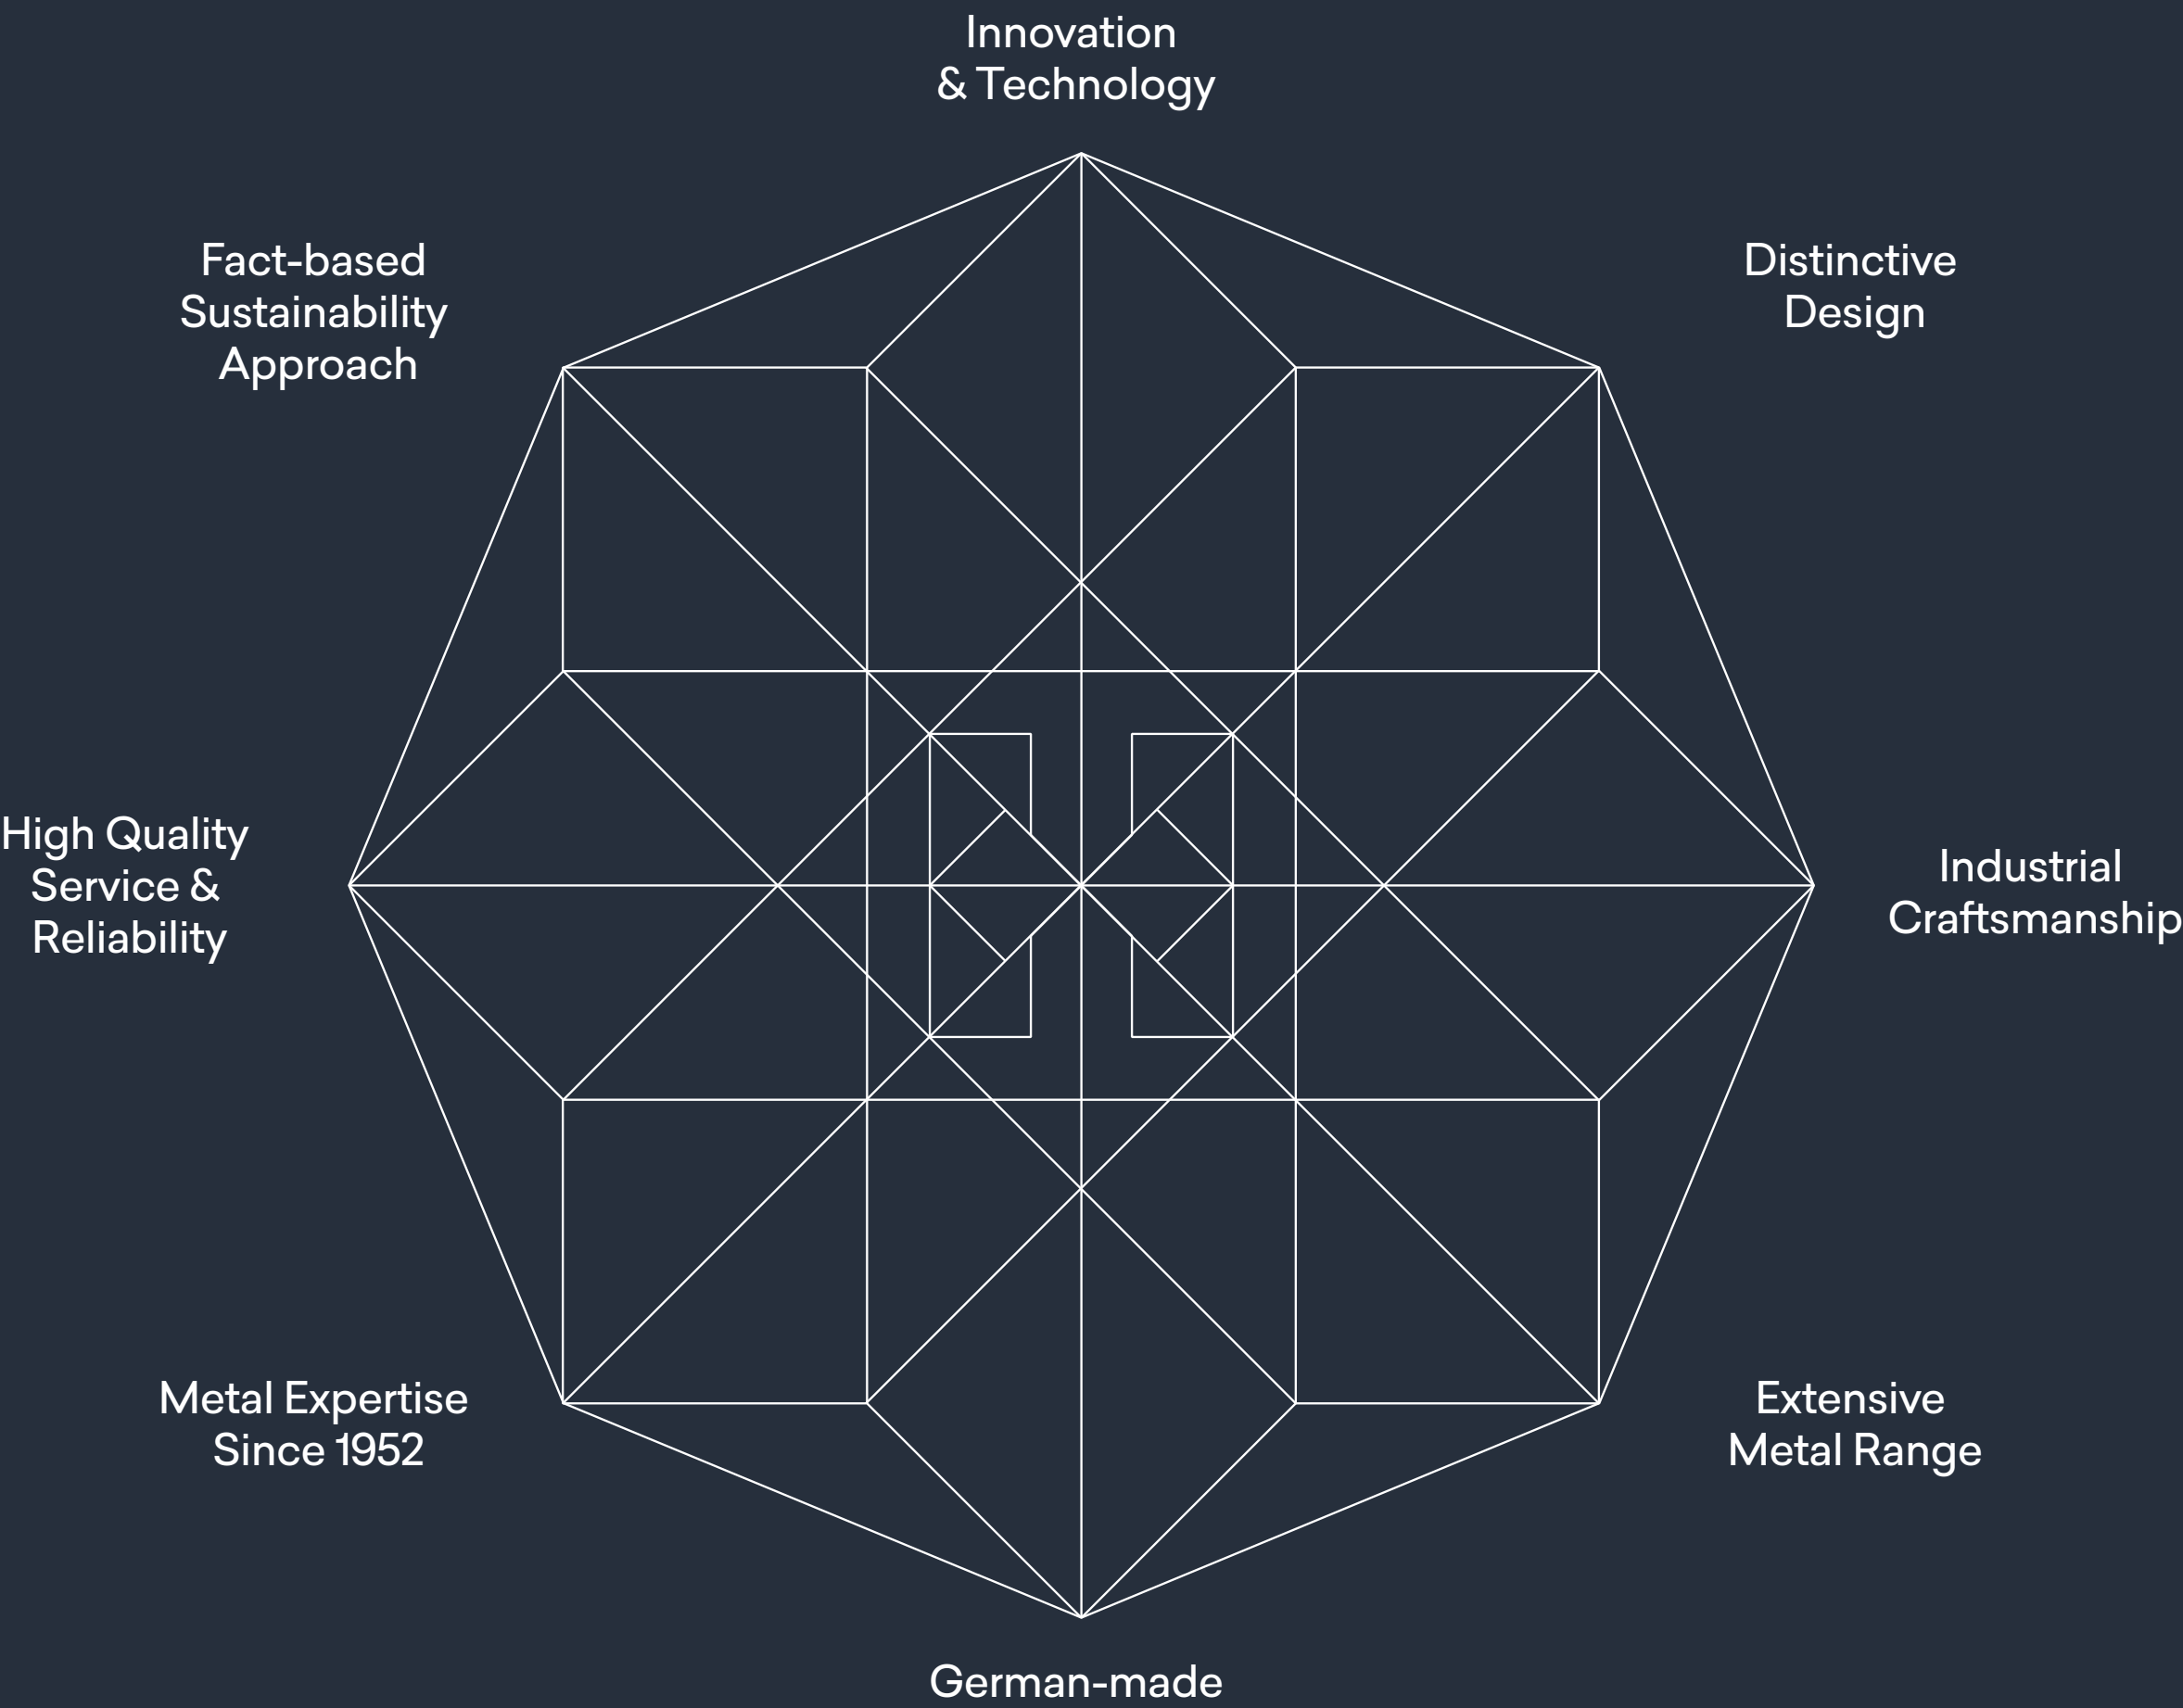

A deep black shade enriched by the textile-like Cella texture, emphasizing structure and dimension.

Homapal® | Where Technique Becomes Beauty

Guided by customer needs and evolving design trends, Homapal® has grown from a specialist in real metal laminates to one of the world's leading manufacturers of high-quality specialty laminates (HPL). Through continuous development of metals and magnetic markerboard collections, Homapal® offers designers and fabricators endless possibilities for creativity and customization.

Each laminate is crafted using thin rolled foils of aluminum, copper, brass, or stainless steel. A proprietary embossing process gives every surface its distinctive texture and character. Homapal® metal laminates are found in a wide range of interiors, from mass-produced furniture to hospitality, retail, office, healthcare and marine environments, wherever surface design is elevated through material innovation.
