

DECOMETAL® SRM
SCRATCH-RESISTANT MATT

TREND
GO MATT

The once dominant glossy look has been pushed aside, with technology allowing us to enjoy the more natural, toned-down beauty of matt finishes, both inside and outside spaces.

Matt creates interesting, understated surfaces that absorb light and come with a low-maintenance finish. It offers a grounding contrast to glam elements, adding a touch of sleek, glamorous sophistication to a space.

TREND
BEYOND MATT

Matt finish, in combination with shining metal material, creates a striking magic of semi-sheens metallic effect which reinforces an emotional appeal of softness, rich colours and durable surfaces.

Dulled metals could provide a subtle finish for walls and facades, in matt shades of silver, gold, copper, bronze and dark tone.

DecoMetal® SRM is a new high-quality, matt surface provided on selected aluminum, copper and brass decors.

The innovative coating process involving special lacquers and hardening techniques creates an ultra-matt look with a unique impression of depth, producing a high scratch-resistant surface with anti-fingerprint properties. The resulting surface is one with high-end textures and hard-wearing qualities.

DecoMetal® SRM is suitable for horizontal use, for example, on counters in exhibitions, shop fittings, or counters in dining spaces, and tables/work surfaces in the office or kitchen. It is also useful for spaces that experience high traffic, like hotels and restaurants.

Lacquered surface with super matt depth effect

Deep matt surfaces that provide the impression of warmth and elegance

Anti-fingerprint

Unique technology that hides fingerprints and scuff marks, especially in high-use areas

High surface wear and scratch-resistant

Durable enough to withstand scratches from hard objects

Suitable for horizontal use

Create an impression of increased space for multiple surface applications beyond vertical panels

MAINTENANCE GUIDE:

- Marker pen must be stored horizontally so that the ink and solvent are kept mixed.
- Do not leave marker on the surface for more than 30 days.
- Avoid heavy rubbing of the surface with dry cloth. The whiteboard duster should be a soft dry surface.
- For better maintenance, clean the surface weekly with a wet cloth.

Some items are not recommended for use as markerboard. Please check with Formica sales representatives before purchase.

SINCE 1913, FORMICA® DESIGNS FOR TODAY WITH FOREVER IN MIND.

Herbert A. Faber Daniel J. O'Conor

FORMICA'S FOUNDING

Formica® was founded in Cincinnati in 1913 by two young men, Herbert A. Faber and Daniel J. O'Conor. Their high-pressure plastic resins were intended to serve as electrical insulators replacing mineral mica, which was used for that purpose at the time. Hence the name "Formica" was chosen. World-renowned artists and architects had also begun to recognize the potential of the decorative laminates and specified them for modernist and art deco interiors.

FORMICA'S SERVICES

Formica® offers a complete range of surface decorative products with Protec+™ technology (High Pressure Laminate, Compact® Grade, ColorCore®, Formica® Custom Graphics™ and FRguard®), premium decorative products (DecoMetal® and FENIX®) and a range of functional products (CHguard® and VIVIX®). All Formica® High Pressure Laminates conform to European BS EN438 standards. And meanwhile, we have got the certification of ISO 9001: 2015, ISO 14001: 2015, ISO 45001: 2018, and GREENGUARD. Formica owns manufacturing bases worldwide, with four located in Asia. Major bases are located in Shanghai (China), Jiujiang (China), Hsinchu (Taiwan) and Bangkok (Thailand).

Formica and the Formica Anvil Device are registered trademarks of The Diller Corporation. © 2020 The Diller Corporation

As a professional word, "Formica" has been recorded in The Oxford English Dictionary as a replacement for decorative laminates.

Formica's Logo History

CHAMPIONING SUSTAINABILITY THROUGH FORMICA® SURFACES.

GREENGUARD CERTIFICATION

Formica Group has taken significant steps to ensure that its products promote a healthy indoor air quality in homes, offices, schools and other indoor environments. According to the US Environmental Protection Agency (USEPA), the most effective way to reduce indoor air pollution is to reduce or eliminate harmful chemical emissions. Formica® takes pride in meeting the strict emissions limits of the GREENGUARD Environmental Institute and in achieving GREENGUARD Certification for Indoor Air Quality for Formica® Laminates, Formica® Laminates, ColorCore®, Compact® and DecoMetal® are certified in Asia according to the GREENGUARD Certification and GREENGUARD Gold Certification standards for Indoor Air Quality. Formica® FRguard®+ is certified with GREENGUARD Certification for Indoor Air Quality.

SINGAPORE GREEN BUILDING PRODUCT CERTIFICATION

The achievement of SGBP certification is a testament to Formica Group's commitment towards making sustainable principles. We are committed to creating innovative products that promote a healthier environment to support sustainable design, and protecting vital resources for future needs via our ongoing efforts to put our green principles in practice through life cycle assessment (LCA), sustainable operations and carbon reduction.

042-065 ENVIRONMENTALLY IMPROVED LOW EMISSION LOW TOXICITY

SINGAPORE GREEN LABEL

Formica® Laminates and Formica® Compact® Grade Laminate are Singapore Green Label certified by the Singapore Environment Council under "Environmentally Improved Low Emission Low Toxicity" category.

CARBON REDUCTION LABEL

Formica Group is the first laminate manufacturer in the world to be awarded with Carbon Trust's Carbon Reduction Label. Formica Group demonstrates its ongoing commitment to reducing its global environmental impact by undergoing carbon footprint assessment and labelling products with the Carbon Reduction Label. Formica Group is pleased to announce that it has measured the carbon footprint for its range of High Pressure Laminates (HPL), Continuous Pressure Laminates (CPL), Compact Laminates and Bonded Worktops, which is now qualified to carry the Carbon Trust's Carbon Reduction Label.
