

NO DARK LINES:
NO LIMITS

ColorCore®

SOLID COLOUR LAMINATES *by* FORMICA GROUP

ColorCore®

SOLID COLOUR LAMINATES by FORMICA GROUP

NO DARK LINES: NO LIMITS

ColorCore® by Formica Group offers a new dimension in decorative surfaces. The homogeneous colour of its decorative surface through to its inner core allows the "dark lines" sometimes associated with traditional laminate to simply disappear, giving a multitude of exciting and creative opportunities to architects and interior designers.

The through-colour material gives limitless choice in creating beautiful surface and edge treatments.

So, "NO DARK LINES" means "NO LIMITS".

CC7940 Spectrum Yellow in Matte 58™

CC2255 Polar White in Satin NDF™

**NO LIMITS
TO CREATIVITY:**

Thanks to its thickness and solid colour throughout you can **sandblast** and **engrave**, carve and router, achieving unique and original surfaces; add interesting edging details and build layered 3D surfaces, setting your ideas free.

ColorCore®

SOLID COLOUR LAMINATES by FORMICA GROUP

NO LIMITS TO DESIGN COMPATIBILITY:

The **new range** gives greater creative breadth in colour and texture, with **5 beautiful new decors** and a choice of **8 surface finishes** - 6 new to the ColorCore® range.

The new textures feature modern takes on timeless looks, adding levels of sophistication - and surprise - to ColorCore surfaces. From the elegant, modern 'pinstripe' of **Rigato™** and the fluid carving of **Sculpted™**, to the subtle luxury of **AR Plus®** premium gloss and the award-winning **Plex™** (red dot design award), the variety in surface finishes adds visual and tactile sensation without sacrificing continuity in colour.

This improved versatility ensures that ColorCore laminates partner perfectly with the wider family of Formica® products and with other, natural materials. A new range for greater design freedom.

ColorCore®

SOLID COLOUR LAMINATES by FORMICA GROUP

ColorCore® by Formica Group is a dramatic and exciting surfacing material, in 1.3mm thickness, that features the high performance characteristics of Formica® decorative laminates with the added dimension of solid through colour. This homogeneous colour obviates the dark line sometimes associated with laminate edges and permits decorative effects to be created by engraving, carving, routing and sandblasting. ColorCore in Matte 58 texture increases levels of wearability and reduces the visual impact of chips and scratches. ColorCore is ideal for applications such as counter tops, point-of-sale units, doors and work surfaces.

ColorCore is available in decors selected from Formica Colors range. Due to the special characteristics of ColorCore, exact matches between ColorCore and Formica Colors may not always be possible. We recommend the comparison of actual samples prior to specification or fabrication.

PREMIUM GLOSS FINISH by FORMICA GROUP

AR Plus® by Formica Group offers a hassle-free, durable high gloss laminate with twice the surface performance of standard gloss laminate. The AR Plus technology delivers a gloss surface that is highly resistant to scuffs and mar abrasions, extending the gloss laminate life cycle.

ISO 14001:2004
