DecoMetal® Collection

Formica Corporation introduces the DecoMetal® Laminates Collection for 2022 with nine usable and trend worthy metal options for commercial spaces.

The introduction enhances the collection by adding painted solid metals, as well as woven textured and hand rubbed phenolic-backed metals in warm light tones, brass, copper and black. As the luxe trend with a nod to Art Deco styling continues in hospitality, retail and elegant interiors, these new additions will expand the options of metal surfacing.

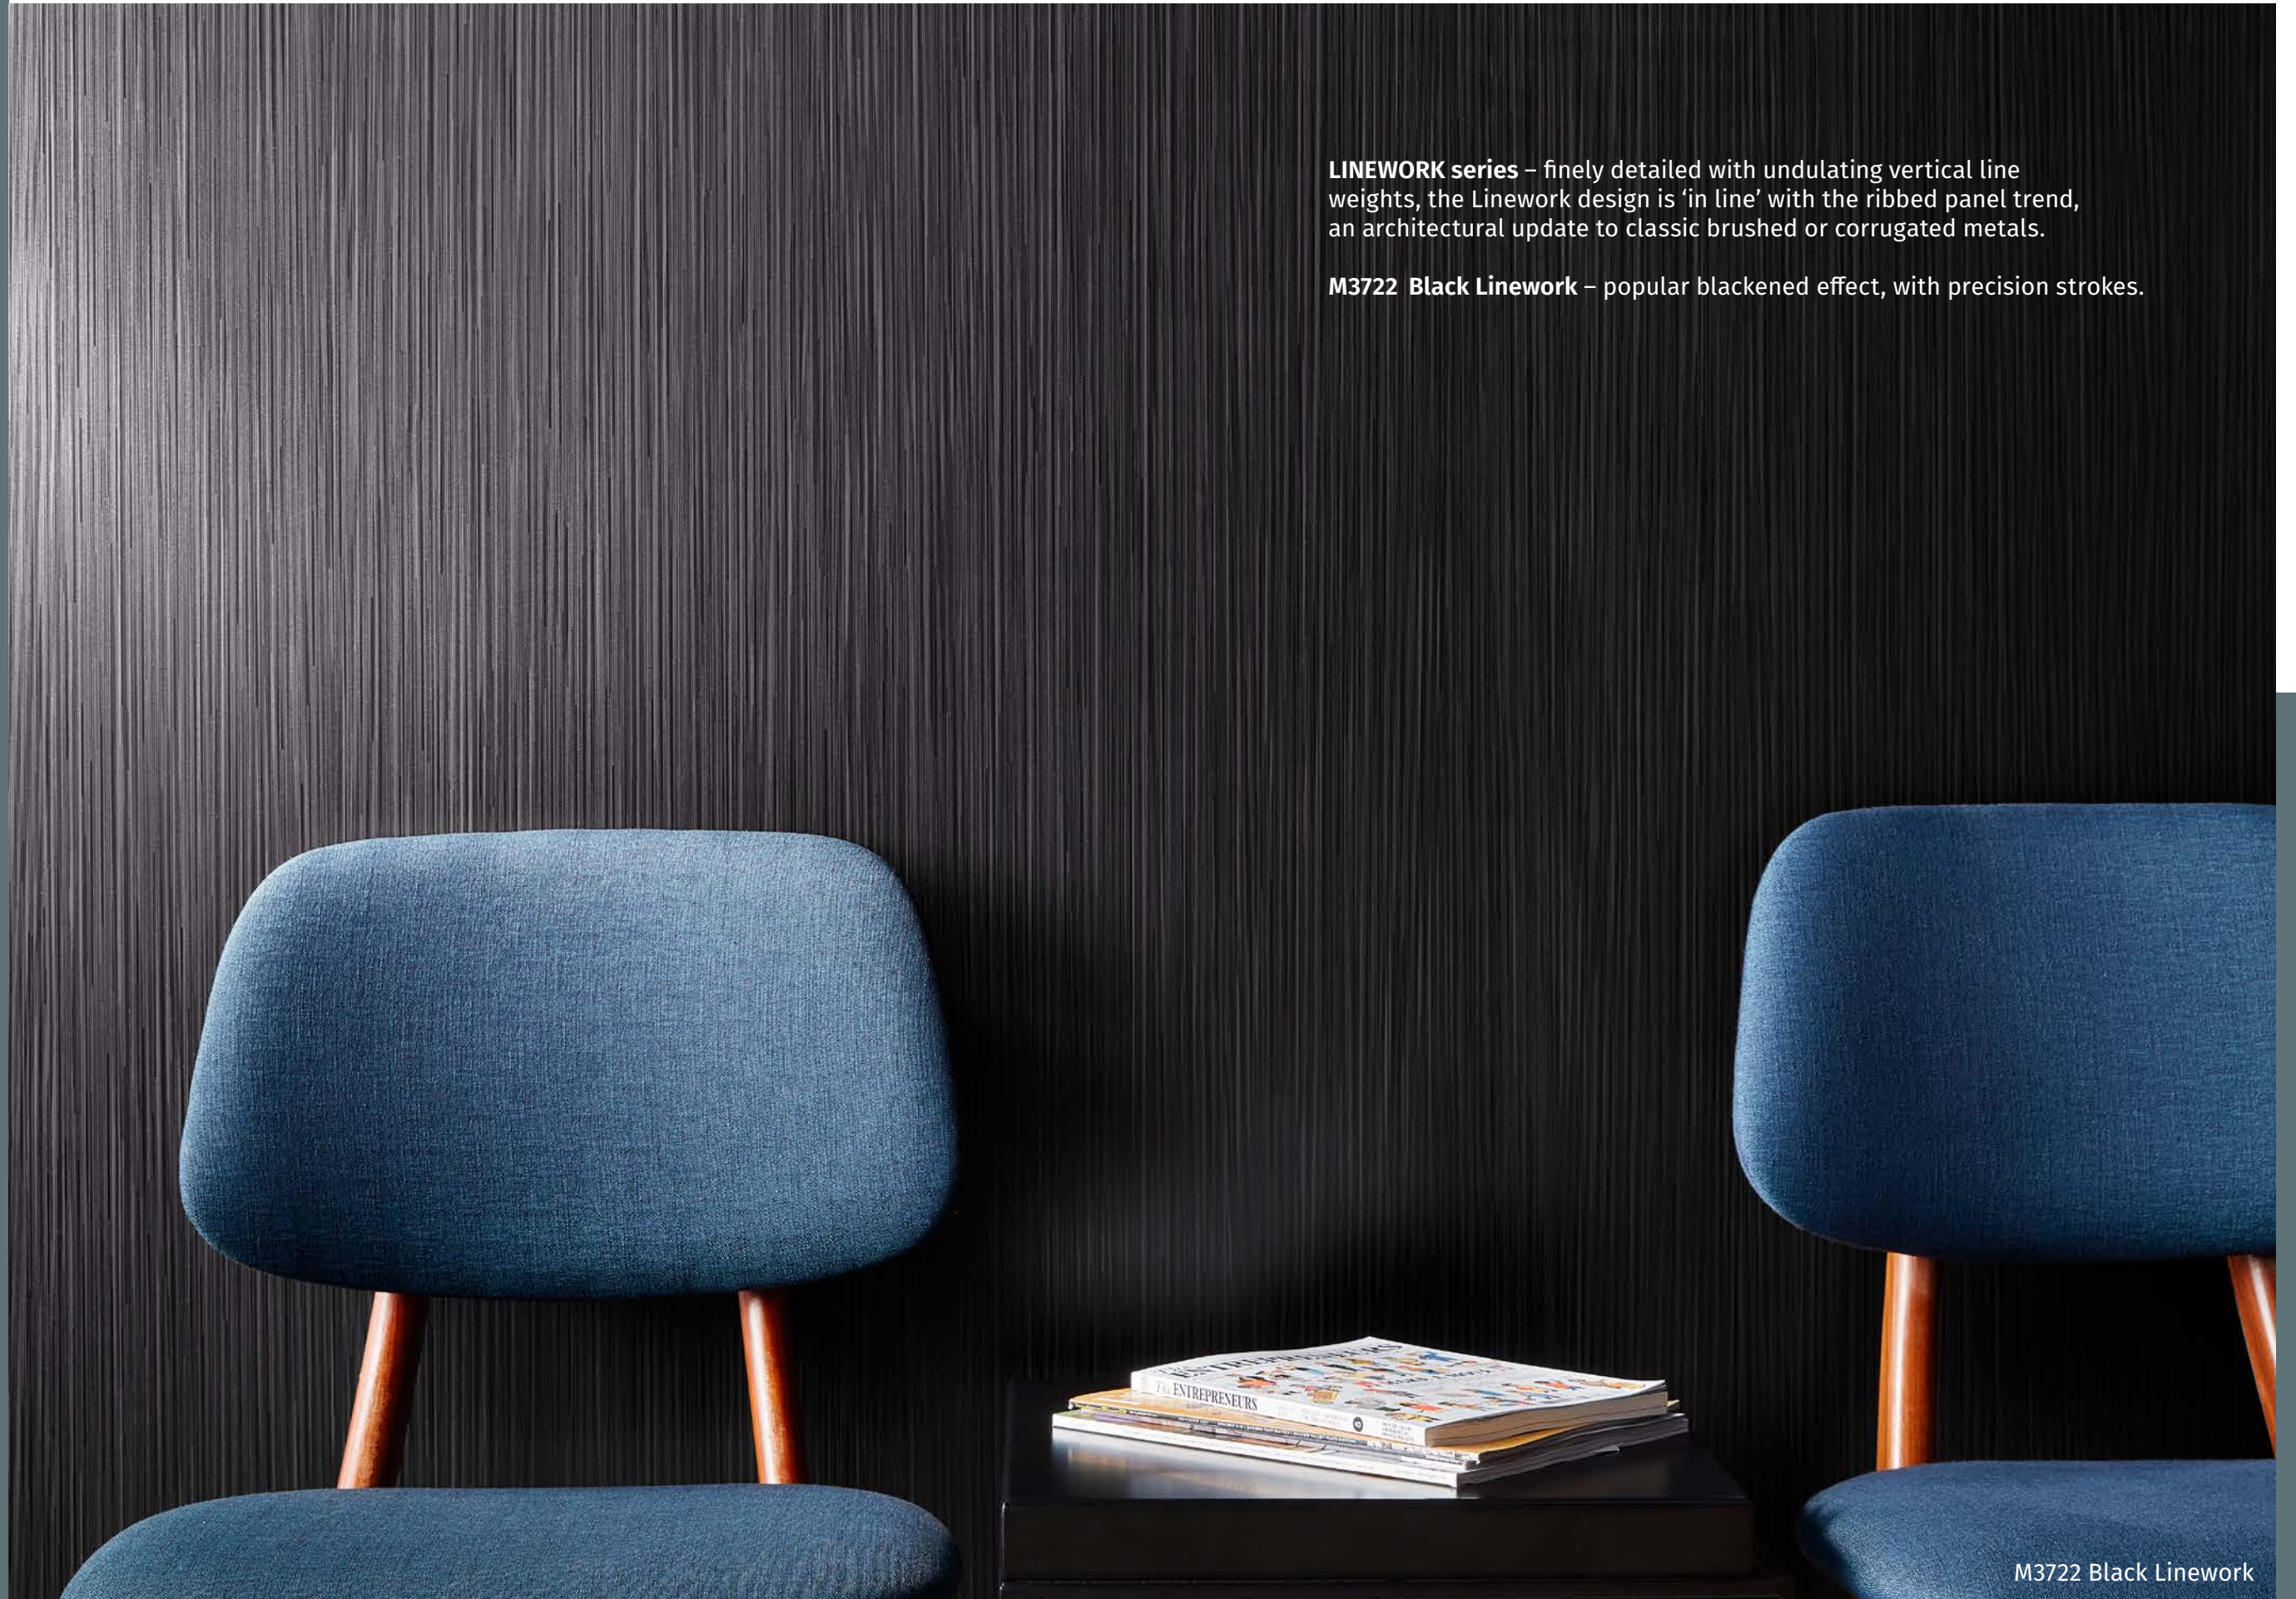

M3723 Zinc Patina

SOLID METALS

LINEWORK series – finely detailed with undulating vertical line weights, the Linework design is ‘in line’ with the ribbed panel trend, an architectural update to classic brushed or corrugated metals.

M3722 Black Linework – popular blackened effect, with precision strokes.

M3722 Black Linework

SOLID METALS

IK

LINEWORK series – finely detailed with undulating vertical line weights, the Linework design is ‘in line’ with the ribbed panel trend, an architectural update to classic brushed or corrugated metals.

M3721 Platinum Linework – a warm silver fine-point design, sophisticated as a surfacing.

SOLID METALS

PATINA series - weathering and age create beautiful natural effects when various metals are exposed to the elements. The additions to the Patina series offer more warm dappled surface effects, perfect for modern or traditional environments.

M3723 Zinc Patina - a usable patina in warm silver gray.

PATINA series - weathering and age create beautiful natural effects when various metals are exposed to the elements. The additions to the Patina series offer more warm dappled surface effects, perfect for modern or traditional environments.

M3724 Oxidized Silver Patina – a dramatic de-silvered and blackened patina.

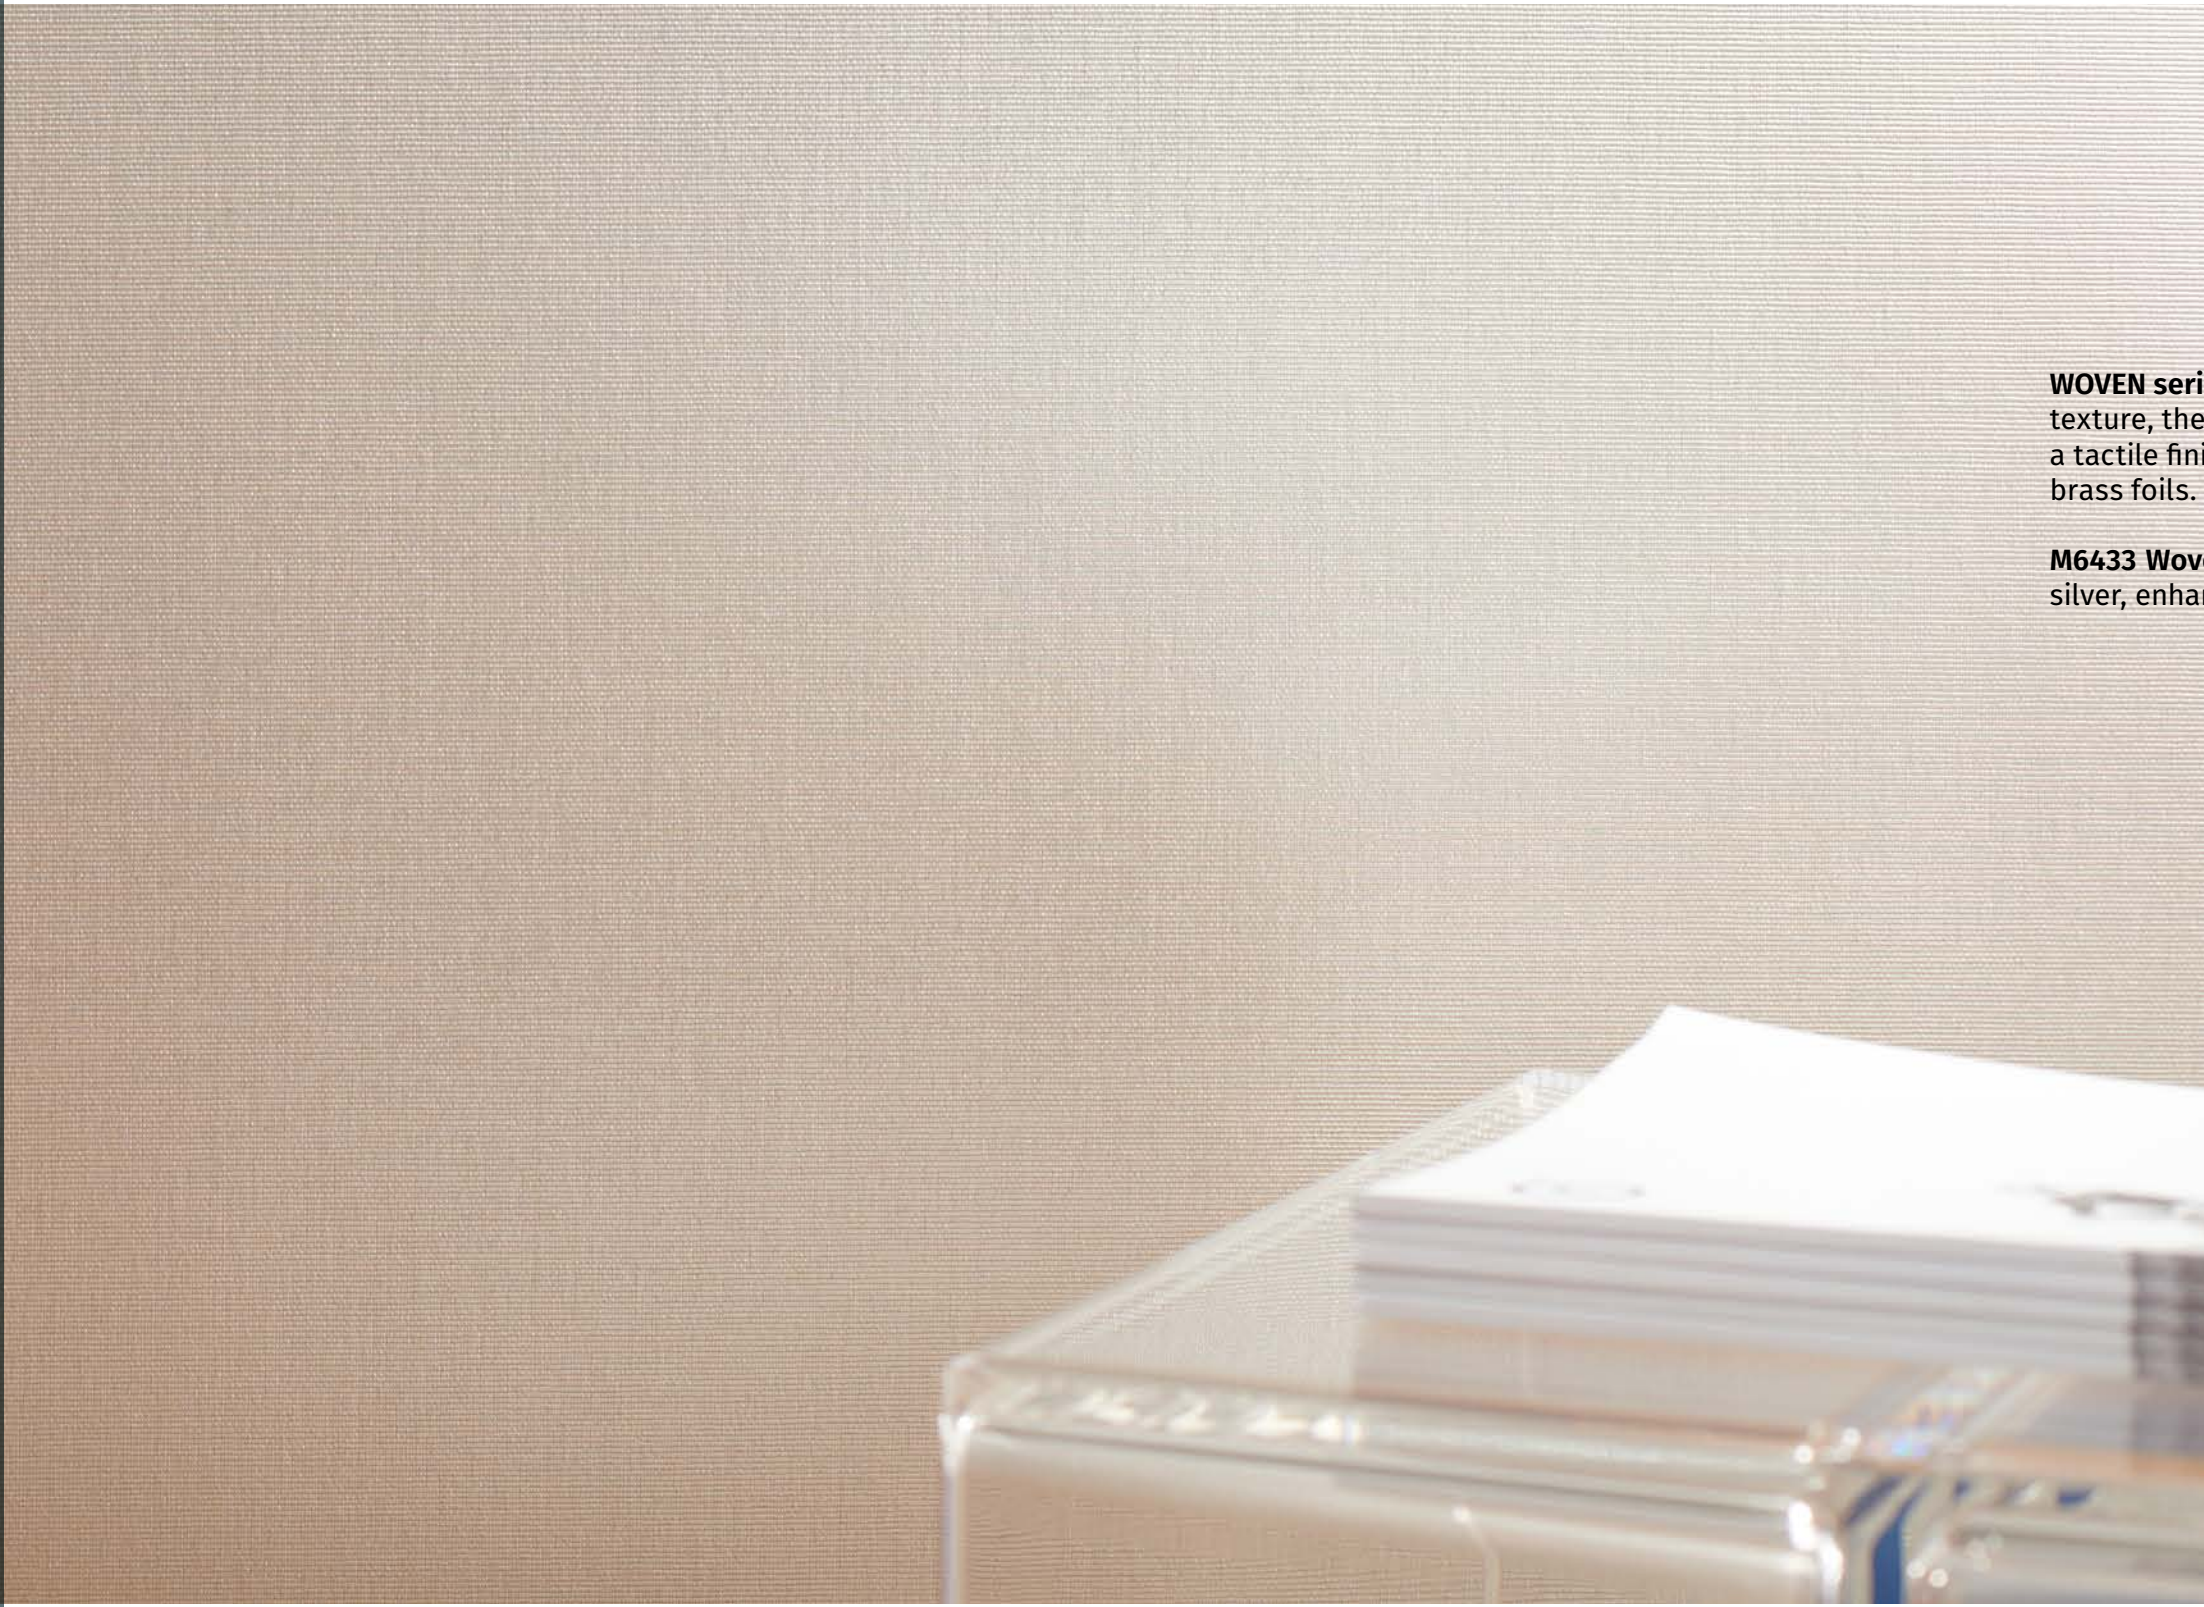

METAL LAMINATES

RUBBED series –a timeless metal visual popular in hardware, the Rubbed series utilizes a decorative oil rubbed technique on real brass and copper foils. Artisans apply darker hand rubbed layers over the underlying metal foils in a linear, banded fashion vertically down the full sheet.

M9958 Antique Rubbed Copper – a reddish brown copper, classically crafted.

METAL LAMINATES

WOVEN series – a linen-like fabric texture, the Woven series marries a tactile finish with warm silver and brass foils.

M6433 Woven Argent – a soft warm silver, enhanced with highlights.

METAL LAMINATES

WOVEN series – a linen-like fabric texture, the Woven series marries a tactile finish with warm silver and brass foils.

M6435 Woven Brass – a warm classic metal, believable as a woven brass.
